PARASOLS

OUTDOOR SHADE EXPERTS

A family-run business rooted in over
20 years of industry expertise

01925 859 960 | info@instashade.co.uk | www.instashade.co.uk

Welcome

Revitalise your outdoor space with sleek and intelligent outdoor solutions crafted by Instashade. We're dedicated to delivering exceptional parasols that seamlessly blend style and practicality. Explore our exquisite range of parasols, meticulously designed to elevate your outdoor experience with both elegance and functionality.

As a family-run business established in 2006, our expertise in the industry and strong client relationships make us a trusted choice for your outdoor needs, whether you're a large corporate organisation or a homeowner with an eye for exterior design.

We pride ourselves on excellent customer service, and supply only the finest, most innovative parasols on the market. All of our products include a minimum two-year warranty, to give you confidence in the quality of our parasols.

If you need guidance in selecting the perfect parasol for your needs, our team is here to assist you every step of the way. Your satisfaction is our priority, and we look forward to helping you transform your outdoor space with style and functionality.

02. Bespoke

Custom Printing

Make a lasting impression with a high-quality, custom-branded parasol. Whether for a café, restaurant, or outdoor event, our premium parasols combine durability, elegance, and full customisation to showcase your brand in the best light.

We offer dye-sublimation printing for full bespoke coverage, and heat transfer vinyl for logos and text on stock coloured fabric.

Ready to elevate your outdoor space with a custom-branded parasol? Contact us today to discuss your design and get a personalised quote.

Tel: 01925 859 960
E-mail: info@instashade.co.uk
Web: www.instashade.co.uk

01. Select Parasol

Choose the parasol you desire and contact us with your design ideas or branding requirements. We will then be able to provide a quote based on your needs and provide a design proof.

03. Approve Design

Once you are happy with your design proof, we will arrange production of your printed parasol, giving you clear timelines.

02. Send Branding

Once our team has been in touch, we will kindly ask you to send any branding and logos. Our in-house design team can create your design from scratch or simply work with your own designs.

04. Receive Parasol

Once your custom printed parasol has been printed and assembled, we will arrange for dispatch and or installation.

Vinyl Printing

This style of printing is perfect for text and logos that are isolated on a stock colour canopy. Heat transfer vinyl is expertly printed and pressed in-house at our Cheshire-based studio to ensure durability and give a quality finish that stands out. Of our three printing options, vinyl is the most budget-friendly option, as you can choose to have as few or as many of the sides of your parasol printed as you would like. It also comes with our shortest standard lead time, perfect if you're on a tight schedule.

It is important to keep in mind however that vinyl print does have limitations on the scale of your artwork, and the design cannot go all the way to the edge of the canopy.

Screen Printing

Screen print can be applied to any of our existing fabric colours and is best for imagery with up to 5 colours, however unlike vinyl the print can be applied all the way to the edge of the canopy with no limitations to size.

UV Printing

UV printing allows for full edge to edge coverage of the parasol with your artwork to create a strong impression for your brand. There are no limits to scale and colour meaning your creativity can take centre stage. Our UV printing has far higher UV properties when compared to standard dye-sublimation, meaning the print will not fade.

Valance Options

Our bespoke valance collection allows each parasol to be tailored with a distinctive, design-led finish. The range includes the elegant Belgravia, the contemporary Hove, the decorative Hampstead Fringe, and the statement Salcombe Stripe, each offering a unique aesthetic to suit both classic and modern outdoor schemes. Crafted from our premium performance fabrics, every valance is designed to enhance visual identity while maintaining exceptional durability, UV resistance and long-term colour stability. Ideal for residential, hospitality and branded environments, these bespoke details create a refined and recognisable signature.

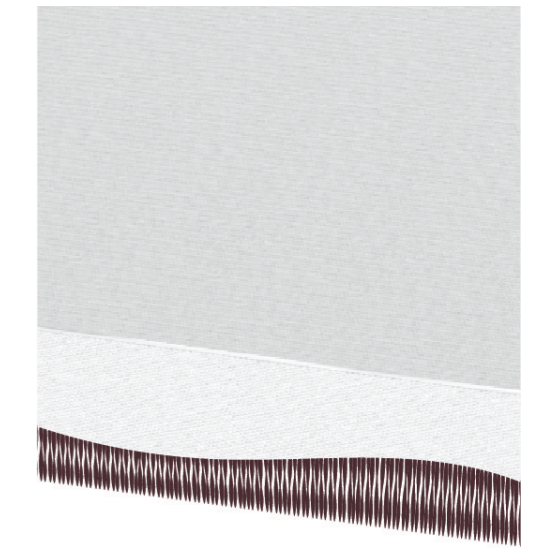

Belgravia Valance

Hove Valance

Salcombe Stripe

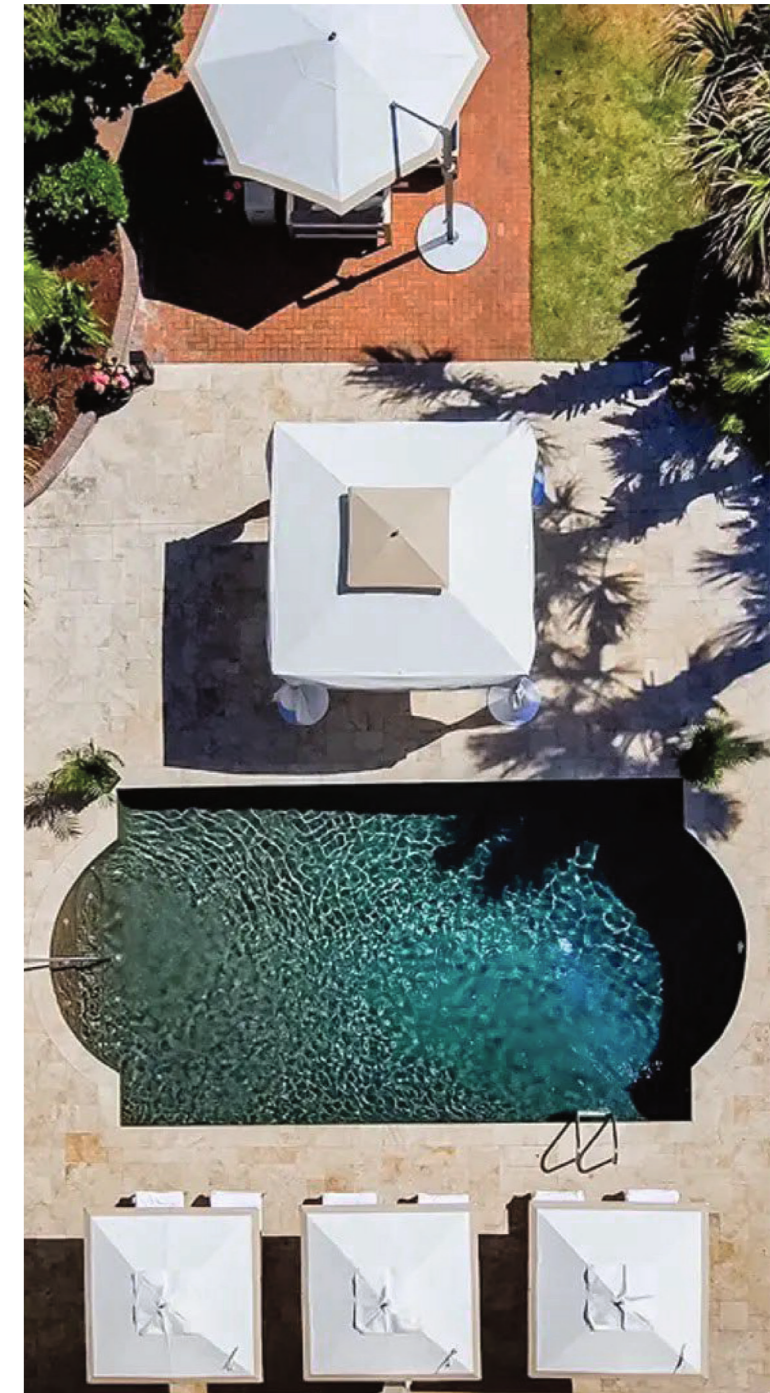

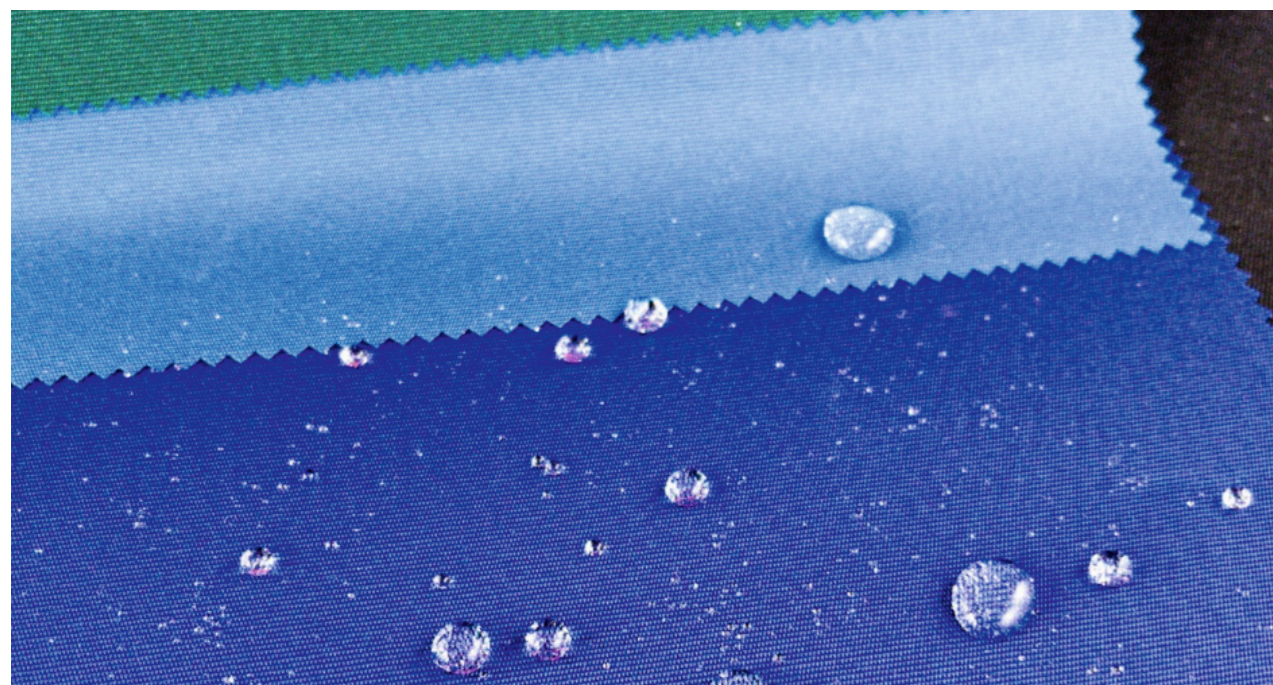

Hampstead Fringe

Trims

Our custom trim and colour options allow each parasol to be tailored with complete design flexibility, creating a truly bespoke finish. Beyond refined edge trims, we offer the ability to customise individual elements, including contrasting trims, alternating canopy panels, and accent-coloured vents, enabling striking combinations or subtle tonal detailing. Available in a curated selection of premium colours and finishes, every component can be specified to complement or enhance the main canopy fabric. Whether the goal is understated elegance or bold brand expression, we can accommodate virtually any colour configuration to achieve a cohesive and elevated aesthetic.

Our Fabrics

Our 100% solution-dyed acrylic fabrics originate from a liquid acrylic polymer solution. Colour pigments are then added to the polymer solution before the fibre is extruded.

During the spinning process, the liquid is transformed into yarn that is fully dyed. This means the colour does not just remain on the surface, but it is consistent right from the heart of the yarn.

This results in 100% solution dyed acrylic fabrics that have exceptional colour retention as well as excellent technical properties and UV and weather resistance.

Frame Options

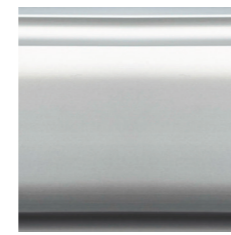

We have a stunning range of frame options to perfectly complement your chosen canopy colour or fit seamlessly with your existing garden furniture. Onyx, Carbon and Alpine White create a sleek, modern finish that works well with every colour. Wood Effect and Heather Willow have a more natural look perfect for gardens and other outdoor spaces.

Please note that not all frame finishes are available for every parasol.

Non-standard frames have an additional £300.00 charge and a 12-15 week lead time.

£25.00

Compatible with:
Eclipse and Aurora

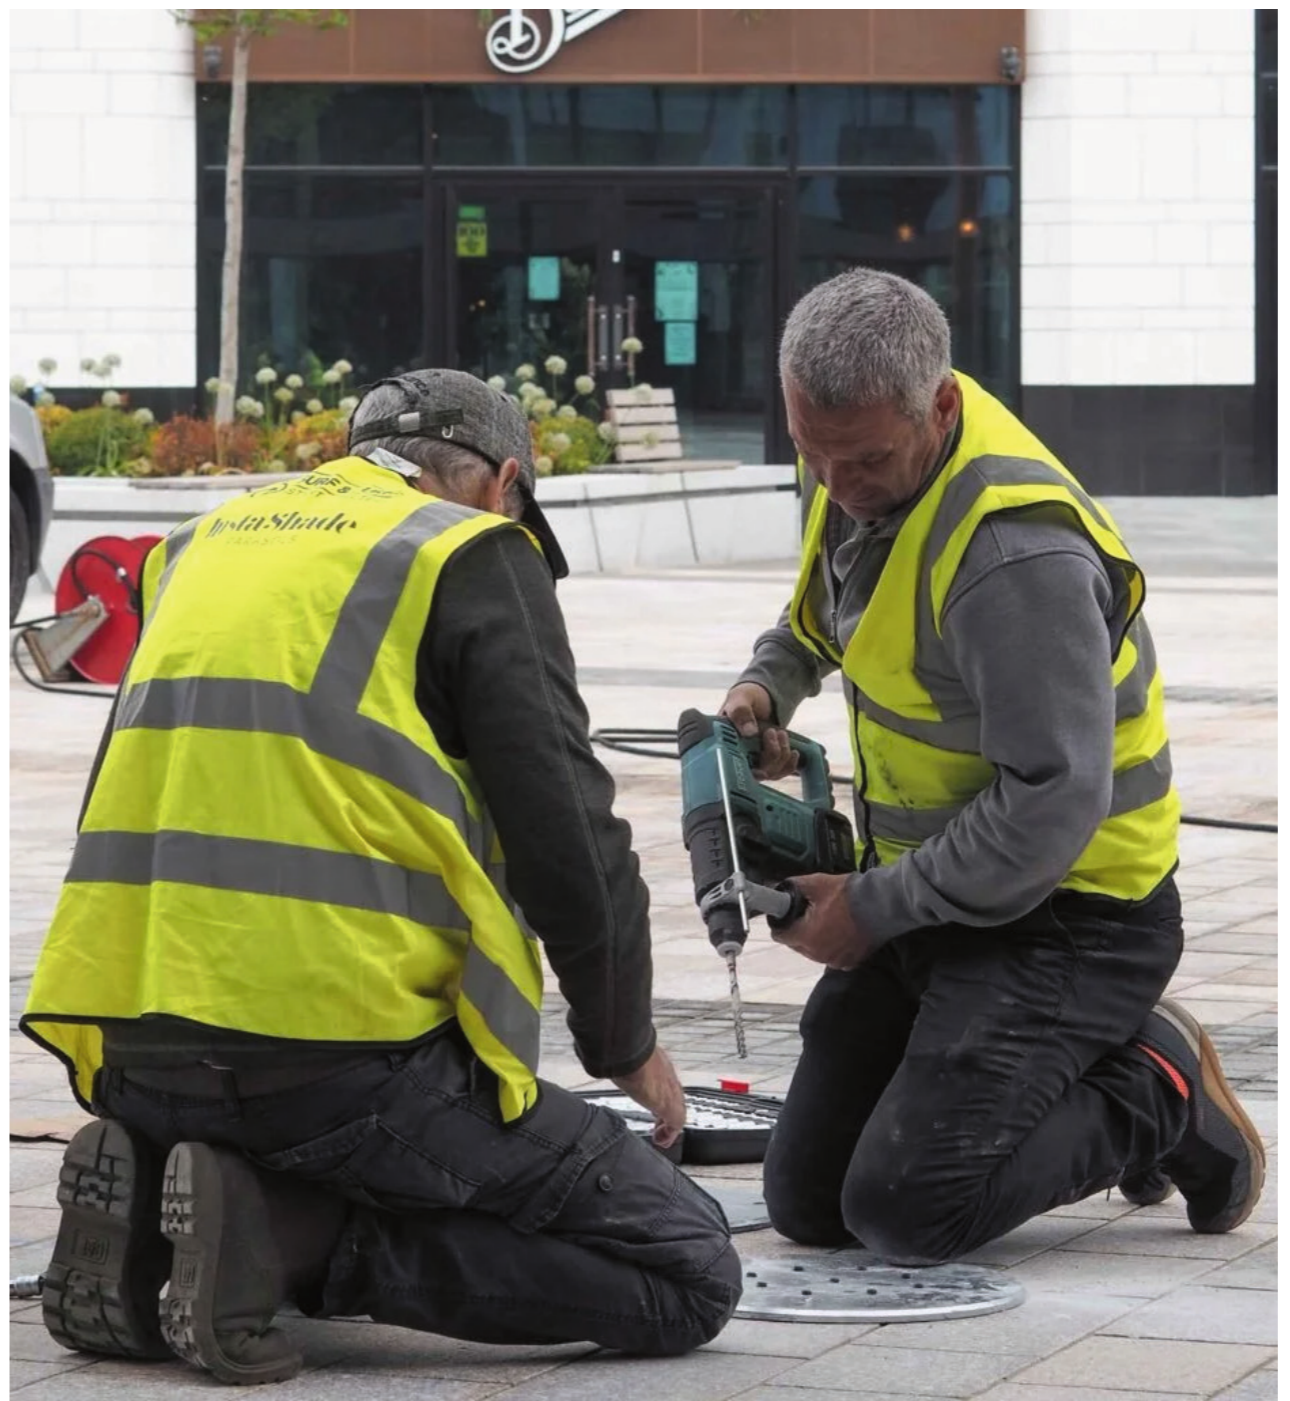

Our Installation Service

We have a dedicated in-house installation team who travel throughout the UK and Europe to install our parasols in both domestic and commercial settings. Installation can include the fitting of the in-ground base which is perfect for paving slabs, grass or gravel and the base plates fitted into solid concrete patios or onto decking (wood or millboard).

As each of our orders are so bespoke and each location requires varying travel times and installation methods, the price for installations will be quoted at the point of order.

During our busy spring and summer season, there can be a longer waiting period for your selected installation dates. We would highly recommend booking this as much in advance as possible if you would like installation between April and August. Installation dates can only be confirmed for confirmed orders and when your deposit has been paid.

All of our luxury parasols come complete with a spigot allowing you to connect your parasol to the base beneath. Our removable and semi-permanent bases are chosen separately.

If you intend to keep your parasol in one place, we recommend the semi-permanent option for the following reasons:

- Maximum security and stability.
- Increased wind resistance.
- Umbrella can be easily removed.
- All installation options.
- No large base.

Accessories

Stabiliser Bars
